

PREVAS SOFTWARE PLATFORM QUICK START

- OE-lite Linux Services

To minimize at study and decision time during a product specification and start-up phase Prevas offers a number of Quick Start services on the software platform. The goal of the Quick Start services is to raise the level of platform knowledge early in the project to enable high quality platform decisions and reduce the risk early in the project. Prevas provides two different types of fixed price Quick Start services within OE-lite Linux.

OE-LITE LINUX EDUCATION WORKSHOP

Knowledge enhancement activities:

- Education for 5-10 developers for a full workday.
- Why OE-lite Linux for BSP's (Board Support Packages)
- How to get started – hands-on get, changing and deploying OE-lite Linux on an i.MX53 QSB board (boards easy and cheap to get).
- Work from a minimized OE-lite Linux BSP with education in how to expand the BSP.
- How to continue the BSP development.

Value for the project team:

- Education in Linux BSP development.
- Reduced platform decision time.
- Higher quality in platform decisions, with reduction of wrong choices – can easily save 2-6 month of delivery delay and development effort.

Fixed price:

- 40.000 DKK ex. VAT and transportation.
- Including 5 hours of follow-up online support and phone question support.

OE-LITE LINUX QUICK START PACKAGE

Knowledge enhancement activities:

- The full OE-lite Linux Education Workshop.

A run for the correct platform the includes:

- The minimalistic BSP and education is made on a chipvendor reference board with a CPU chosen by the customer.
- Kernel and boot-loader is the newest available for the reference board and the initial BSP is fitted to that before the education workshop.

Further added values for the project team:

- Faster start-up on the real target CPU.
- Faster access to target test for application developers.

Fixed price:

- 75.000 DKK ex. VAT and transportation.
- Including 5 hours of follow up online and phone question support.

If more features are to be included early in the evaluation and education Prevas also provides start-up services, according to mutual agreements on the goals and content of the project start-up service.
